PRIMARY EXAMINER

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or render obvious the overall claimed invention of an apparatus for regulating the functioning of a patient's organ or duct, comprising: a flexible element slidably disposed within a elongated member, the flexible element defining a helical screw thread; and a telemetrically-controlled actuator disposed on a second end of the elongate member, the actuator having a nut that engages the helical screw thread, operation of the actuator causing the nut to draw the helical screw thread therethrough, whereby the flexible element constricts the loop against the patient's body organ or duct, or an elongated member having first end and second ends, the elongated member having a compressible ventral surface and a substantially rigid dorsal periphery; a nut actuator coupled to an electric motor; a flexible element slidably disposed within the elongated member, the flexible element defining a helical screw thread, the flexible element having a fixed end coupled to the first end of the elongated member an a free end that engages and extends through the nut actuator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
